FOOTPRINTS: Respite in a happy and safe environment

FOOTPRINTS is a local, volunteer-driven, not-for-profit program dedicated to providing respite care for families with children 13 years of age and under who have been diagnosed with Autism Spectrum Disorders.

Program Highlights

The program at FOOTPRINTS is geared towards the skills and interests of the children involved. Parents are required to provide information about their child to allow the Program Consultant to create a program suitable for their child.

FOOTPRINTS can include, but is not limited to: free play, arts and crafts, story time, outdoor playtime, movies, and educational assistance in school based activities. A child's level of participation is strictly voluntary and supported by the program's staff and volunteers.

Respite services are provided at a cost of

\$30 for a 5-hour session

\$18 for a 3-hour session

Payment is due upon arrival and a receipt will be issued.

Making a Difference for Families

For many families, raising a child with Autism Spectrum Disorder means being "on" 24/7. FOOTPRINTS' mission is to provide families with a few hours of respite. It is knowing a difference is being made that drives FOOTPRINTS forward, as stated by one mother:

"Being a single mother of 3 boys, 2 who are diagnosed with Autism, FOOTPRINTS allows me peace of mind while running errands or catching up on laundry, or even spending special time with my eldest son. I know the boys have fun, burn off steam in a safe, clean environment with well-trained, compassionate staff. FOOTPRINTS is an important part of our family's life and routine."
